

Sociable Objects Workshop

Instructor: Rob Faludi

Plan for Today

- Imagined Sociable Objects presentations
- PAN ID signup, mailing list signups, documentation
- firmware updates
- basic configuration
- pair exercise
- Readings & Assignments

Administrative

- PAN ID signup
- mailing list signups
- documentation
 - every project
 - for now, send me links and I'll post them

Imagined Sociable Objects Presentations

Higher Quality Projects & Better Feedback

- Exercise 1: Self-critique
 - Consider your own concept, its development, your presentation aesthetic, presentation organization and storytelling
 - What do you feel could have gone better?
 - What are you happy with?
 - Once you have spoken, classmates are encouraged to weigh in.
- Remember, we always critique the project, never the person.

Readings and Assignments

- Readings
 - XBee ZB Manual, sections 1-3, ignore ZigBee Application Layers
http://ftp1.digi.com/support/documentation/90000976_C.pdf
 - Chapter 2 & 3 of Faludi
- Assignments
 - basic pairs exercise
